

Department of Poultry Science

Major Advisor: Assistant Professor Aaron Kiess

Office: Hill Poultry Science

The U.S. poultry industry is a \$21 billion+ business employing hundreds of thousands of people in the United States. Mississippi ranks 4th in broiler production and is continuing to expand. This dynamic industry employs about 25,000 Mississippians directly and another 25,000 indirectly.

The Poultry curriculum provides for in-depth study of scientific principles important in the production, processing and marketing of poultry and poultry products. The curriculum is designed with academic and experiential components to ensure that graduates are prepared to manage people and resources vital to this important food industry. Poultry students should also expect to develop creative thinking skills that will allow them to develop solutions for complex real world problems as they develop their careers as managers. The strong science content of the curriculum also makes it an excellent fit for pre-vet students and students interested in graduate studies. The department provides one-on-one advising for all Poultry Science students. Concentrations available are:

- Production Systems
- Business Management
- Processed Products
- Pre-Veterinary Medicine

Only grades of C or higher will be accepted for all PO courses as well as BIO 3103, GNS 3103, and VS 2033.

Satisfied by successful completion of PO 4324 and 4844

Choose one of the following concentrations:**Production Systems Concentration (POPS)**

The technical aspects of poultry production demands knowledge of business operation, building construction and the operation of the sophisticated equipment utilized throughout the industry. This concentration is appropriate for students interested in entering into a personal poultry operation of field services with large poultry enterprises.

ABE 1863	Engineering Technology in Agriculture	3
ABE 4383	Building Construction	3
ABE 4473	Electrical Applications	3
ACC 2013	Principles of Financial Accounting	3
AEC 3133	Introductory Agribusiness Management	3
BIO 1123	Animal Biology	3
BL 2413	The Legal Environment of Business	3
CH 1043	Survey of Chemistry I	3
EG 1143	Graphic Communication	3
PSS 3303	Soils	3
AEC 2713	Introduction to Food and Resource Economics	3
BIO 2113	Plant Biology	3

Total Hours		122

Business Management Concentration (POBM)

Poultry is one of the largest agribusinesses in the U.S. The business management concentration satisfies all the requirements for a minor in Agribusiness. Thus, this concentration offers lucrative employment opportunities to the poultry science major.

ACC 2013	Principles of Financial Accounting	3
ACC 2023	Principles of Managerial Accounting	3
AEC 4123	Financial and Commodity Futures Marketing	3
BIO 1123	Animal Biology	3

Processed Products Concentration (POPP)

The future growth of the poultry industry is closely associated with advancements in processing technology. There is a large demand for well trained poultry scientists with this capability. This processed products concentration satisfies the requirements for a minor in Food Science.

BCH 4013	Principles of Biochemistry	3
BIO 1134	Biology I	4
BIO 1144	Biology II	4
CH 1213	Chemistry I	3
CH 1223	Chemistry II	3

FNH 4164	Quality Assurance of Food Products	4
FNH 4241	Applied Food Chemistry	1
FNH 4243	Composition and Chemical Reactions of Foods	3
FNH 4583	Food Preservation Technology	3
Free Electives		8
Total Hours		122

Pre-Veterinary Concentration (PVSP)

The Pre-Veterinary concentration allows a student to satisfy the pre-veterinary requirements while completing a B.S. in Poultry Science. The Poultry Science department offers a 3 + 1 program for admission to the College of Veterinary Medicine. Contact the Poultry Science department for these requirements.

Poultry Minor

The need for people who have specialized knowledge outside of classic poultry science is growing rapidly. Currently the industry recruits and employs personnel trained in areas such as accounting, biological sciences, computer science, human nutrition, nursing, microbiology, engineering, food technology, advertising and marketing, veterinary medicine, human resource management and law. A minor in Poultry Science provides these individuals with enhanced employment opportunities in the poultry industry.

Students will be required to complete the following courses to receive a minor in Poultry Science.

PO 3313	Commercial Poultry Production	3
PO 4313	Management of Commercial Layers	3
PO 4333	Broiler Production	3
PO 4413	Poultry Nutrition	3
PO 4514	Poultry Processing	4
